

Design a Water Safety Poster

Using everything you know about water safety, design a poster telling people how to keep safe in the water. Your poster could be about general water safety or specific to a certain type of water, such as swimming pools or the beach. Decide whether your poster should be aimed at younger children, older children or adults.

A large, empty rectangular box with a double-line border, intended for the student to draw their water safety poster. The box occupies most of the page below the instructions.
